ADDITIONAL INFO ABOUT CONSERVATION PRACTICES

Cost estimates will be developed using our current county average rates, which can be found on our website: www.madison-swcd.org/contractors
County average rates are for estimate purposes only! Planners' estimates will be used when county average rates are not available for a practice.
Actual cost share will payments will be determined after work is completed and bills are received; they are based on the eligible or estimated cost, whichever is less.

"FARMSTEAD" WINDBREAK (acre)

- 75% of the eligible or estimated cost, whichever is less, not to exceed \$1,600/windbreak for establishment or renovation

\*\*\* If seeding introduced species, these practices require a soil test to be done (if not tested within previous 4 years) and fertilizer to be applied at the recommended rates (if needed to meet NRCS Standards and Specs).

REAP-F/NG NOTES: State funds are cost-shared at rates up to 75% with applicants assuming at least 25% of the cost. Cost-share for REAP-F/NG, with the exception of windbreaks, can only be used on agricultural land, which is land used for the commercial production of food and fiber.

REAP-P NOTES: Unless otherwise noted, all cost-share is 50% of the eligible or estimated cost, whichever is less. REAP-P funds can be used in combination with other public funds to provide a total cost-share rate up to 75%; REAP-P funds cannot exceed 50% of the total funding. Privately owned land not used for agricultural production shall not qualify for water protection practices funds. Exception to this rule: Streambank and Shoreline Protection and Stormwater Best Management Practices are eligible whether or not the land is in agriculture production. There is no minimum acre or dollar limit.
