

Madison County Soil and Water Conservation District **Statement on Equity and Environmental Justice**

Adopted by the Madison County SWCD Board of Commissioners on July 31, 2023

At the Madison County Soil and Water Conservation District, we prioritize equity and environmental justice by championing fair access to resources and opportunities to all residents of Madison County. Our mission to conserve, protect, and enhance resources for present and future generations means we focus our programming on engaging diverse stakeholders, offering tailored solutions, addressing disparities, and empowering communities through education. Through our outreach programs, conservation planning and continuous monitoring, all residents of Madison County benefit from our natural resources equitably and sustainably.
