**LEGAL DESCRIPTION:**

\_\_\_\_\_ T \_\_\_\_\_ N R \_\_\_\_\_ W  
 (Quarter) (Section) (Township)

**First Time Users Only:**

**NITRIFICATION INHIBITOR**

*Nitrapyrin or Pronitridine only, with fall-applied anhydrous*

\_\_\_\_\_ acres @ \$3.00/ac ..... \$ \_\_\_\_\_  
 Flat Rate

**NO-TILL or STRIP-TILL**

*Certified after next spring's crop has been planted*

\_\_\_\_\_ acres @ \$10.00/ac ..... \$ \_\_\_\_\_  
 Flat Rate

**NOTE:** All WQI Statewide management practices are for one year only and the applicant must sign the **Residue and Management Practices - Practice Maintenance Agreement and Eligibility Certification form**. All practices will be planned to meet NRCS standards and specifications. 160 acres max.

NOTE: Individuals that receive \$600 or more in cost share funding will receive a 1099.

**COVER CROPS** 

*Staff will fill in acres/dollars after planning completed*

**First-time User**

\_\_\_\_\_ acres @ \$30.00/ac ..... \$ \_\_\_\_\_  
 Flat Rate

**Previous User**

\_\_\_\_\_ acres @ \$20.00/ac ..... \$ \_\_\_\_\_  
 Flat Rate

**Other Programs**

IFIP

POL

\_\_\_\_\_ acres @ \$25.00/ac ..... \$ \_\_\_\_\_  
 Flat Rate  
 x \_\_\_\_\_ years = \$ \_\_\_\_\_

*(Madison County SWCD may offer \$25/ac on up to 160 acres for up to 4 years through IFIP. Must be applied on the same acres each year. Both the applicant and the landowner are required to sign the Request for Assistance letter. The **landowner** must sign the Maintenance/Performance Agreement. Total cost share will be paid in first year after certification; the applicant will be required to certify each year.)*

Additional information for Multi-Year Cover Crops (funded by IFIP):

If an applicant signed up to do cover crops for multiple years and decided not to do it for the full term specified in the maintenance/performance agreement, the landowner would be required to pay back the entire cost share amount. It is not prorated for the number of years the practice was used.

By submitting this application, I understand that it is subject to the eligibility requirements of the program; that any practices completed with cost share will be bound by a maintenance agreement; and I grant SWCD representatives the right of ingress and egress to my land for conservation planning purposes.

**Iowa Cover Crop Fact Sheets:**

[www.nrcs.usda.gov/resources/tech-tools/iowa-cover-crop-fact-sheets](http://www.nrcs.usda.gov/resources/tech-tools/iowa-cover-crop-fact-sheets)

*\*\* Although the published seeding dates provide the best guidance for establishing cover crops, a late seeding variance for winter cereal rye, winter triticale, and camelina allows these species to be seeded prior to December 21.*

*The late seeding date requires additional management considerations to realize the benefits of seeding a cover crop. Drilling or incorporating the seed in the late fall will improve establishment, allowing the cover crop to grow longer in the spring prior to termination will allow more biomass and root growth.*
